Intervention Transfer Training_{SM} (ITT) for PTS | TBI | ST/MST | MI

+ [Proprietary **K9-centric Post Traumatic Growth**_{SM} Training Protocols]

RECOVERY [CONTROL, REGULATE, and MITIGATE_{SM}]

Clients realize that they can **Control** their emotional and behavioral response after a trigger -- that is each Client's "AH-HA Moment."

Through practice, Clients **Regulate** their emotional and behavioral response after a trigger.

Over time, Clients **Mitigate** their PTS, TBI, ST/MST, MI, and other trauma-related symptom sets.
