## “Cave Dweller”

- Non-Functional w/in Society
- Heavily Medicated
- Suicidal
- Hospitalized

- Functional (w/ Minimal Assistance) w/in Society
- Lightly / Non-Medicated
- Independent Living Status

Client Acceptance Range

Desired Client Recovery Range

# Medical Assistive Technology facilitates inclusion in appropriate activities and environments

**Goal:** To Demonstrate to the “world” that a Psychiatric Service Dog is as important to a person with C/C PTSD / TBI as a prosthetic leg/arm is to an amputee.

**One Case/ One Client at a time.**
